

TRACKMAN EQUIPMENT FITTING

When it comes to equipment the equation is simple, your swing equals your equipment. Many swing faults can be traced to shaping your golf swing to compensate for ill-fitted equipment. Each accommodation requires timing, and that need for timing limits your ability to be consistent. Regardless of your level of play, getting custom fitted equipment can help you play better.

1-HOUR DYNAMIC FITTING WITH TRACKMAN (Woods, Irons, and Putter)

Change your game with our dynamic fitting session, designed to determine your custom equipment specifications, while being informative and educational along the way. We begin the process assessing your current equipment make-up, performance history, and unique static measurements. Then we assess your performance data while testing a selection of shafts to determine which exact shaft frequency is ideal for you. We finish up providing custom equipment recommendations including brand options and set make-up, as well as exact specifications for lengths, lie angles, lofts, grip size and shaft frequency.

1-HOUR PUTTER FITTING WITH TRACKMAN

The putter is the most important club in any golfer's bag since you hit 40%-50% of all your shots with this one club. Therefore, it is critical that your putter fits your physical characteristics and eye to give you the best chance to aim, stroke and roll the ball consistently. Learn your ideal length, lie angle, loft, toe flow, weight and off-set specifications to improve your putting & scoring.

1-HOUR DRIVER OPTIMIZATION WITH TRACKMAN

Hitting fairways and maximizing driving distance is critical to improving your game. Finding the optimum attack angle, launch angle, spin rate, ball speed, carry distance and run while limiting shot dispersion will maximize your driver performance. Whether you're looking to tune your existing driver or test new head and shaft combinations, this fitting is for you.

1-HOUR WEDGE GAPPING WITH TRACKMAN

Properly fitted wedges assist you in saving strokes from varied conditions around the green including tight fairways, deep rough, and the sand. We will assist you in determining how to best match your wedges to your normal conditions, your preferred techniques, your current irons, and inform you of your exact distances to maximize your performance on the course.
